

Global Kids School, Tumakuru — Website Research & Flagship Design Brief

Research date: 29 September 2026

Prepared for: Website creation for the school's Home, About, and Contact pages

Working identity: Global Kids School / Global Kids High School, Tumakuru

What is confirmed

The supplied Google share link resolves to a Google local listing named **Global Kids School Vokkodi**, described as an educational institution in Vokkodi, Tumakuru. The listing gives the address as **Global Extension, Puttanapalya, Vokkodi, Tumakur, Karnataka 572107, India** and lists **+91 86600 66542** as a phone number. The listing shows the business as closed at the time of capture and opening at 9:30 am; hours should be reconfirmed before publishing. It also shows one public review, so reviews should not be treated as a representative rating. ¹

The school's public Instagram profile is **@globalkidstumkur** and describes the institution as **Global Kids High School, Tumkur**, with a positioning around nurturing young minds, quality education, holistic growth, and fun learning. The profile also shows posts under the wider **Global Shaheen** identity. ²

A school Instagram reel describes the educational promise as “world-class learning, critical thinking, and global perspectives” and uses the idea of building “dreamers into doers.” This is useful as brand-language inspiration, but it is promotional copy rather than independently verified evidence. ³

A separate indexed Instagram snippet associated with the school gives contact numbers **0816-2950219**, **+91 86600 66542**, and **+91 91130 78818**. Because the numbers appear in a social-media promotion and differ from the Google listing, the school should confirm which number is the primary admissions line before launch. ⁴

A YouTube video titled “**TUMKUR NEWS | GLOBAL KIDS SCHOOL CBSE PATTERN**” was published by Sada-E-Hind Urdu News on 19 March 2026. The page records approximately 1.4K views at the time of research and has no description. The title supports using **CBSE-pattern** as a lead to verify, but it is not enough on its own to claim official CBSE affiliation or to publish an affiliation number. ⁵

Important identity and address discrepancy

Public sources do not currently agree on one clean location string:

- The Google local listing says **Global Extension, Puttanapalya, Vokkodi, Tumakuru 572107**. ¹
- A school Instagram search result refers to **Global Extension, Nagar Heggere, Tumakuru** and gives multiple contact numbers. ⁴
- The school's Instagram profile and related posts reference **Global Shaheen / Bheemasandra, Tumkur**. ²
- An independent Agnirva directory entry places **GLOBAL KIDS** at **Bheemasandra Main Road, Tumkur** and labels it a private unaided, recognized institution. The same page explicitly says it is not the institution's official website. ⁶
- The Shaheen Group's own Tumakuru page confirms a related education campus at **Global Shaheen College, near Bheemasandra Eidgah, Bheemasandra, Tumakuru 572107**, with phone **+91 83106 41291**, toll-free **1800 121 6235**, and emails princiglobalabc@gmail.com and tumkur@shaheengroup.org. This is a related institution page, not proof that these are the school's own admissions contacts. ⁷

Website requirement: do not publish a map, address, phone number, curriculum claim, grade range, fee, transport promise, or affiliation badge until the school confirms the canonical information. The website should have one editable contact-data object so the address, phone, WhatsApp, email, hours, and map link can be corrected in one place.

Brand and messaging direction

The strongest recurring themes across the public presence are:

- nurturing and safe learning;
- quality education with a warm, child-friendly tone;
- holistic development rather than academics alone;
- critical thinking and global perspectives;
- learning through engagement, activity, and fun;
- future-facing language such as dreamers becoming doers;
- a connection to the broader Global / Global Shaheen education identity.

Use these as **brand themes**, not as proof of specific facilities or outcomes. Avoid unsupported claims such as “best school in Tumakuru,” “100% results,” “international curriculum,” “smart classrooms in every room,” “CBSE affiliated,” “transport across Tumakuru,” “air-conditioned campus,” “CCTV everywhere,” or “trained counsellors” unless the school supplies evidence.

Recommended website structure

Home

1. **Announcement strip:** “Admissions open — [academic year]” only after the school confirms the cycle.
2. **Hero:** a joyful, human campus moment with the headline “Where curious minds grow into confident doers.” Suggested subheading: “A nurturing school community in Tumakuru built around meaningful learning, confidence, character, and possibility.”
3. **Primary calls to action:** “Enquire about admissions” and “Visit the campus.”
4. **Trust band:** use only verified facts such as school name, location, board/curriculum, grades, years of operation, or contact number. If not verified, use a parent quote or a “What families can explore” label instead of invented statistics.
5. **Learning philosophy:** three cards — “Learn with curiosity,” “Grow with confidence,” and “Lead with purpose.”
6. **Experience section:** classroom learning, activity-based learning, arts/sports/events, and parent partnership. Replace or remove any item the school cannot document.
7. **Campus gallery:** real school photographs first; placeholders must be clearly marked for replacement.
8. **Admissions pathway:** enquire → speak with the school → visit → complete application. Do not show fees or deadlines until supplied by the school.
9. **Parent-facing contact block:** canonical address, phone, WhatsApp, email, office hours, and map.
10. **Footer:** school name, quick links, admissions CTA, social links, privacy notice, and copyright.

About

Recommended sections:

- **Who we are:** concise copy positioning Global Kids as a Tumakuru school where children are supported to learn, participate, and grow.
- **Our approach:** curiosity, clear foundations, activity, collaboration, reflection, and responsible use of technology.
- **What we value:** kindness, integrity, courage, respect, responsibility, and joy in learning.
- **The school community:** students, educators, and families working as partners.

- **Leadership / principal message:** use a real signed message and portrait supplied by the school; do not invent names or credentials.
- **Campus and learning environment:** describe only verified spaces and facilities, supported by real photographs.
- **Milestones:** add a timeline only after the school provides founding year, expansion, affiliations, awards, or events.

Contact

Include:

- a short admissions-oriented introduction;
- one prominent phone number, with secondary numbers clearly labelled if applicable;
- WhatsApp CTA if the number supports WhatsApp;
- email;
- confirmed campus address;
- office hours;
- embedded map using the confirmed Google Business location;
- enquiry form fields: parent/guardian name, phone, email, child's age or grade of interest, preferred visit date, message, consent checkbox;
- success state: “Thank you — the school team will contact you soon.” ;
- privacy note explaining how the enquiry will be used;
- visible alternate contact path for users who cannot submit the form.

Visual direction and image plan

Recommended look

Create a premium, warm, modern school identity rather than a generic template. Use:

- **Primary colors:** deep ink navy or forest teal for trust; warm saffron or coral for energy; soft sky blue and cream for openness; fresh green for growth.
- **Typography:** a friendly, highly legible sans-serif for body copy with a rounded display face for headlines. Keep the headline type expressive but never childish.
- **Shapes:** soft organic blobs, rounded cards, hand-drawn accent lines, subtle paper grain, and restrained grid lines.

- **Photography:** authentic children learning, teacher-child interaction, a real campus exterior, group activities, sports or arts, and a parent-school moment. Use natural light, candid gestures, eye-level framing, and visible diversity.
- **Image treatment:** mix full-bleed photography with cutout portraits and scrapbook-like accents, but keep the layout calm enough for parents to scan quickly.

Visual references found

The image search returned a YouTube thumbnail associated with “**TUMKUR NEWS | GLOBAL KIDS SCHOOL CBSE PATTERN.**” It shows a campus/event setting and a speaker/interview frame. It can be used as a research reference, not automatically as production website media. The two downloaded copies are included with this brief for review:

The image search also surfaced photographs for **Kids International School** and **Global Shaheen PU College**. Those are not confirmed as Global Kids School assets and must not be used as if they depict this school. Use them only as visual-style references, or replace them with school-supplied images. 8

Asset checklist for the school

Request original, high-resolution files for:

- logo in SVG/PNG;
- campus exterior and entrance;
- classrooms and teachers;
- students learning, making, reading, playing, and performing;
- labs, library, playground, transport, or smart boards only if these exist and are to be promoted;
- principal / leadership portraits;
- school events and awards;
- uniform and identity guidelines;
- current admissions poster;
- exact address pin, contact data, office hours, board/affiliation wording, grade range, and application process.

Obtain parent/guardian consent for identifiable children before publishing photographs. Keep third-party directory and social-media images as references unless the school explicitly grants permission to reuse them.

Motion and interaction specification

The flagship feeling should come from **smooth, purposeful motion**, not constant movement:

- hero entrance: soft fade, 12–20px upward motion, and staggered text reveal;
- floating illustrated accents: slow 12–18 second drift with `prefers-reduced-motion` fallback;

- scroll reveals: section headings and cards enter once with gentle opacity/translate transitions;
- statistics or trust items: count up only when they are real verified numbers;
- image galleries: hover zoom limited to 1.03–1.05 with a soft overlay and caption;
- cards: lift 4–8px, sharpen shadow, and reveal an arrow or microcopy on hover;
- buttons: spring-like scale from 1 to 1.02, color shift, and arrow movement;
- navigation: transparent-over-hero to solid-on-scroll with a smooth transition;
- page transitions: short fade/slide, never a long loading animation;
- contact form: inline validation, clear focus states, and a friendly success animation;
- mobile: simplify parallax, avoid hover-only information, preserve tap targets of at least 44px;
- accessibility: respect `prefers-reduced-motion`, maintain keyboard focus, use semantic headings, provide alt text, and preserve strong contrast.

Production-ready AI website prompt

Copy and paste the prompt below into the website-generation AI. Replace every bracketed field after the school confirms it.

Plain Text

Create a production-quality, responsive flagship website for “Global Kids School

Brand story:

Global Kids is a nurturing school community where curious children build strong

Accuracy lock:

Treat the following as editable content variables and show them only when suppl.

- canonical school name: Global Kids School / Global Kids High School [confirm
- confirmed address: [insert one verified address only]
- primary phone: [insert verified admissions number]
- secondary phone / WhatsApp: [insert verified number]
- email: [insert verified email]
- office hours: [insert verified hours]
- curriculum/board wording: [insert verified wording; do not claim CBSE affilia
- grades served: [insert verified range]
- admissions year and deadline: [insert verified details]
- map URL: [insert verified Google Maps link]

If a variable is missing, use a clearly labelled placeholder in the content mod

Information architecture:

1. Home: announcement bar, sticky navigation, hero, admissions CTAs, trust sect.
2. About: school story, learning approach, values, community, leadership messag
3. Contact: admissions introduction, confirmed contact details, enquiry form, m
